3.2 Mentor Mentee System

Mentor mentee system

The college adopts a unique method of counseling/ mentoring for the holistic development of learner's of all class. In this method every faculty has been assigned group of 10 to 20 students for mentoring and academic guidance. The faculty, however, shares his/her personal and professional experiences with students during mentoring. Students are equipped with various skill sets like problem solving skills, communication skill, analytical skill, logical skill and real world skill and employable skill to boost the confidence and competence of the learners.

Mentoring System has considerably enhanced the campus ambiance and brought about:

- Enhanced contact hours between faculty and students.
- Improvement in students' attendance records.
- Minimized student drop-out rates (apparently due to Mentors' intervention before a student falls short of attendance or has been regularly abstaining from classes)
- Identification of slow learners and motivation for the studies.
