## SCOPE OF SEMINAR

In recent years, several herbal industries have surfaced and are gaining immense importance in the market, due to increasing craze for herbal products. However, the efficacy & reliability of these products is a major challenge in today's competitive market. Moreover, to curb the chances of adulteration or repackaging of such products, there is a need for developing standards for analysis in order to create awareness amongst the society.

With relevance to increasing demands of herbal products at global level, the proposed seminar will specifically focus on boosting the herbal research through analysis and standardization. It will provide a platform for entrepreneurship skill development in herbal sector with the advent of 'Make in India' and 'Start-up India' drive. Moreover, the seminar will provide an opportunity for broader interaction amongst industry, academia, researchers and students.
